TAKE PART IN THE HEALTHY CALVES CE SERIES.

Zoetis Canada is excited to launch the Healthy Calves CE Series. This educational initiative for veterinarians is designed to harness and promote novel approaches to calf health—and help fill milk bottles to the brim!

PROGRAM

NOVEMBER 18, 2020

3 pm ET

Duration: 1 hour

REGISTER NOW!

Prioritizing calf health management on Canadian dairies: opportunities, economics, and motivating change.

See how you can integrate the latest calf health management practices such as audits, programs, recordkeeping and benchmarking in your own business, as well as gain an understanding of the economics of such strategies.

Steven Roche, MSc, PhD,

Director and Principal Consultant, ACER Consulting Ltd

Adjunct Faculty, Department of Population Medicine, Ontario

Veterinary College, University of Guelph

NOVEMBER 24, 2020

3 pm ET

Duration: 1 hour

REGISTER NOW!

Automated calf feeders: what do we know about them and where can they go wrong?

Find out how you can predict disease in preweaned dairy calves by using feeding behaviours and other technologies. New and innovative research using nutraceuticals will also be discussed.

David Renaud, DVM, PhD,

Consultant, ACER Consulting Ltd

Assistant Professor, Department of Population Medicine,

Ontario Veterinary College, University of Guelph

DECEMBER 2, 2020

3 pm ET

Duration: 1 hour

REGISTER NOW!

Respiratory diagnostics in dairy calves: the who, what, why, where and when.

Find out more about using lung ultrasound and clinical scoring to identify early cases of respiratory disease and then review upper and lower airway sampling techniques, pathogens involved, available tests and results interpretation.

Theresa Ollivett, DVM, PhD, DACVIM (Large Animal)

*Assistant Professor in Food Animal Production Medicine
section at UW-Madison School of Veterinary Medicine*

WE LOOK FORWARD TO YOUR PARTICIPATION
