

The ABCDs of confident diagnosis & treatment of feline heart disease

Tuesday, December 7, 2021,
at 3 p.m. (EST)

12:00 BC (PST) 1:00 AB (MST) 2:00 SK/MB (CST) 3:00 ON/QC (EST) 4:00 PEI/NB/NS (AST) 4:30 NL (NST)

During this webcast, cardiology specialist, **Dr. Rebecca L. Stepien** will cover the identification and staging of heart disease in cats, including the diagnosis and treatment of preclinical heart disease and congestive heart failure.

In conjunction with the most current recommendations of the ACVIM consensus guidelines for the classification, diagnosis, and management of cardiomyopathy in cats, she will also discuss the use of the following assessments:

- physical assessment;
- non-echocardiographic assessment including NT-proBNP evaluation; and,
- simple echocardiographic assessment

Join us to become more confident in your evaluation and treatment of feline heart disease.

Presented by
Rebecca L. Stepien
DVM, MS, Dipl. ACVIM (Cardiology)

Dr. Rebecca L. Stepien has been a Clinical Professor at the University of Wisconsin School of Veterinary Medicine since 1994. She is a past president of the Specialty of Cardiology at the American College of Veterinary Medicine and currently serves as senior staff cardiologist at UW Veterinary Care in Madison, WI. She is the associate editor for veterinary medicine at CASE Journal (Cardiovascular Imaging Case Reports) and a founding member of the Cardiac Education Group (cardiaceducationgroup.org). Dr. Stepien is a frequent speaker at national and international conferences. Her research interests include myxomatous valve disease in whippets, diagnostic echocardiography and systemic hypertension.
